LOCATION: Harris Engineering Center, Room 101

COST: Admission is Free

RSVP: Space is limited - please click here to register

ABOUT I-CORPS: UCF I-Corps is a 10-week accelerated program to develop and build a business around your research. As a participant, you will be provided with $2,600 to advance and further develop your research and related market and business. By the end of the program, you will have developed a customer validated business model, and discovered the market opportunity for your research innovation.

I-Corps requires you to participate as a team that must include a Student or Entrepreneurial lead, Faculty/Principal Investigator, and Mentor (Serial Entrepreneur/Industry Executive). I-Corps staff can assist with finding these team members. Each team member should expect to commit 15-20 hours/week.
