

UNIVERSITY OF CENTRAL FLORIDA

Data Science Summit: Smart Cities of the Future
Friday, Oct. 19, 2018
8 a.m. – 2 p.m.
UCF Main Campus, Orlando

As technology shapes the communities of tomorrow, city planners increasingly use data science to create efficiencies and reduce costs. Orlando – among the nation's fastest growing regions – has become the epicenter of Smart City opportunity.

You are invited to join industry, academic and community thought leaders to exchange ideas in this information summit hosted by the University of Central Florida, in partnership with the National Science Foundation's Southern Big Data Hub.

8 a.m.: Registration Opens
8:45 a.m.: Program Begins

Keynote Speakers:

David Kuehn, Manager, U.S. Department of Transportation Exploratory Advanced Research Program

Dr. Mohamed Abdel-Aty, Chair, UCF Dept. of Civil, Environmental and Construction Engineering and Director of UCF Future City Initiative

Panel 1: Smart Cities: Building a Real Tomorrowland

Complimentary Lunch and Poster Presentations by UCF Students

Panel 2: FinTech Panel: Data Science and the Next Generation of Financial Products and Services

Keynote Panel: Public and Private Partnerships of Smart Cities: When Academia, Industry and Government Collaborate

Panels will feature representatives from: University of Central Florida, Disney, Siemens, Royal Bank of Canada, Mitsubishi, Luminar and the City of Orlando

RSVP by October 10:

In Partnership with the South Big Data Innovation Hub: southbigdatahub.org

The South Big Data Innovation Hub is a research coordination network that catalyzes and strengthens public-private partnerships to apply data science and analytics to scientific, societal and economic challenges important to the region and the nation. The South Hub is one of a network of four hubs across the country, launched by the National Science Foundation in partnership with our host institutions, including the University of North Carolina at Chapel Hill and Georgia Tech.
