Our Alumni and Students Say:

“UCF’s many research opportunities connect academic work with real-world engineering problems and practitioners on a local and global scale.”

- Ryan Shamet, Ph.D.

“UCF was the perfect place for me to obtain my degrees. My classes were relevant and interesting, the PhD process was organized, my committee was responsive and supportive, and the environment was flexible.”

- Melissa Francisco, Ph.D.

“The CECS doctoral program at UCF offers a highly intellectual atmosphere and an opportunity to work with some of the most interesting and brightest minds. We work closely with industry and create advanced technology in state-of-the-art laboratories.”

- Deepa Lakshmi, Ph.D. candidate

“I have learned how to ‘dream big dreams’ and about global innovation, which has encouraged me to pursue my aerospace and biomedical engineering research on a global scale.”

- Albert Manero, Ph.D.
