

Announcing the Virtual

UCF Technology Ventures Symposium 2022

Find Your Hidden Gem
in Central Florida

February 17, 2022

The Central Florida economy is large and increasingly diverse. Thanks to UCF's influence and the many high-tech innovation-based industries located here, new ideas, innovations and startups are launching daily. These **HIDDEN GEMS** are little known to those outside Orlando, and ripe for potential investment.

BRINGING TOGETHER
COMMUNITY ENTREPRENEURS + UCF STUDENT STARTUPS
+ FACULTY RESEARCHERS + VENTURE INVESTORS

Why You Should Attend

Investors

- Find hidden gems of innovation (post-laboratory, early-stage companies)
- Meet innovators from maturing companies seeking growth capital
- Connect with UCF commercialization experts for licensable new technology
- Influence the commercial potential of new technology ideas
- Identify industry experts for diligence and operational projects

Entrepreneurs & Faculty

- Present to an audience of venture capital investors
- Discover the ecosystem of new venture creation resources at UCF
- Learn about technology licensing at UCF
- Find potential contributors and team members
- Hear the trends and technologies most enticing to investors

**About UTVS 2021**

More than 240 attended the inaugural UCF Technology Ventures Symposium in February 2021, featuring keynote speakers and UCF alumni **Jason Eichenholz '95, '98**, co-founder and CTO, Luminar Technologies; and **Kevin DiMarzio '10, '14**, VP Business Development, Made In Space. The day included presentations by UCF alumni, faculty and students who highlighted their innovative ideas and companies. Capped with a startup pitch competition for students and emerging, early-career alumni vying for a \$10,000 prize, the day concluded with a highly-anticipated announcement of the winner, FLUIX, LLC, presented by **Abhi Sastri '20**.
