

HYDROGEN

The Time is NOW

Creating a Hydrogen Economy to Achieve Net-Zero

Thursday, Sept. 8 | 9 a.m. - 3 p.m. | UCF Student Union, Cape Florida Ballroom

JENNIFER WILCOX, PH.D.

*Principal Deputy Assistant Secretary
Office of Fossil Energy and Carbon
Management, Department of Energy*

WILLIAM "BILL" NEWSOM JR.

*President and CEO
Mitsubishi Power Americas*

ALEXANDER CARTWRIGHT, PH.D.

*President
University of Central Florida*

Join us for a hybrid event that brings together Florida companies and academia to create a path toward a decarbonized future.

With more than 110 countries and 200 of the world's largest companies pledging to achieve net zero carbon by 2050, hydrogen will play a critical role in the energy transition. A transition of this size

requires collaboration across the government, public and private sectors, academia, NGOs, and communities around the world. One thing is clear: the energy transition has to be clean, affordable, accessible, and reliable.
